

## **Bginfo Installation Instructions – Revised 1/7/08**

1. Create the Bginfo directory on the C: drive of the computer where you want to install bginfo.
2. Go to <http://gideon.k12.mo.us/install>
3. Go to the bginfo directory
4. Save Bginfo.exe AND bginfo.bgi to the Bginfo directory on the C: drive.
  - a. (Note: with Mozilla you may have to save them to the desktop and then cut and past them into the Bginfo directory.)
5. Go to Programs, Startup
6. Right click on Startup
7. Select Explore
8. Select Add Shortcut
9. Browse to c:\bginfo\Bginfo.exe (make sure it is the .exe file. If you need to, you can right click on the file and select properties to make sure it is the executable file).
10. Finish creating the shortcut
11. Then go back to startup and right click on bginfo
12. Select Properties
13. Make sure the “target” line reads as follows
14. C:\bginfo\bginfo.exe c:\bginfo\bginfo.bgi /timer:0 (a space between the .exe and the c:\bginfo... and a space between the .bgi and /timer. The 0 is a zero.)

That should do it!!!
